

# ANDY BUCKLEY

## INTRODUCTION

For over a decade, Andy Buckley served as a Financial Advisor at a major bank, part of a group managing over 300m in personal assets. This was perfect background material for his fictional role as, David Wallace, CFO of the Dunder Mifflin Paper Company, playing opposite Steve Carrell on NBC's hit comedy The Office.

Since The Office he's done recurring roles on HBO's hit comedies VEEP and Silicon Valley, the CBS show SCORPION, and a Bravo comedy ODD MOM OUT.

Additionally, Andy has had supporting roles alongside Will Ferrell & Mark Wahlberg in 'The Other Guys' and in 'Life As We Know It' opposite Katherine Heigl & Josh Duhamel. And he does all of this while still maintaining his position at the bank.
