

Tony Seba is a Lecturer in Entrepreneurship, Disruption and Clean Energy at Stanford University, a serial Silicon Valley entrepreneur, author, and thought leader. His work focuses on clean energy, entrepreneurship, market disruption, and the technology trends that are leading to the disruption of the world's major industries, such as energy, transportation, manufacturing and infrastructure. A sought-after educator and speaker, Seba has keynoted at organizations as varied and influential as Google, the California League of Cities, Institute for the Future, and the Inter-American Development Bank.

At Stanford University he teaches entrepreneurs and executives how to anticipate disruption and create successful and disruptive businesses. His courses include "Anticipating and Leading Market Disruption", "Clean Energy and Transportation - Market and Investment Opportunities", "Finance for Entrepreneurs" and "Business and Revenue Model Innovation". He also teaches regularly at Singularity University, at top business school around the world, and in-company at some of the world's top high tech companies such as Google and Cisco.

Mr Seba has been an advisor in the development of hundreds of megawatts of solar and wind projects. He is also an advisor to policy makers, venture capital investors, technology companies, and startup accelerators.

A serial Silicon Valley entrepreneur, Seba was an early employee at Internet leaders Cisco Systems and RSA Data Security where he managed strategic planning and business development. He was the founder and CEO of venture-backed PrintNation.com, which disrupted the 4th largest manufacturing industry in America: commercial printing. He has won numerous 'best-of' awards including Forbes 'Bes...
