

Thomas Davenport is a world-renowned thought-leader who has helped hundreds of companies revitalize their management practices. He combines his interests in research, teaching, and business management as the President's Distinguished Professor in Management and Information Technology at Babson College. He has also taught at the Harvard Business School, the University of Chicago, Dartmouth's Tuck School of Business, and the University of Texas at Austin and has directed research centers at Accenture, McKinsey & Company, Ernst & Young, and CSC. Tom earned a Ph.D. from Harvard University in social science.

An agile and prolific thinker, Tom has written or co-authored sixteen best-selling business books and is one of Harvard Business Review's most frequently published authors. He is the creator and/or early author of several key business ideas including: competing on analytics, big data, knowledge management, human approaches to information management, business process reengineering, and realizing the value of enterprise systems.

His latest book, *Big Data at Work*, covers all the bases including what big data means from a technical, consumer and management perspective and where it can have real business impact. *Keeping Up with the Quants: Your Guide to Understanding and Using Analytics* continues his pioneering work on Data Analytics begun with the bestseller, *Competing on Analytics* - named by the Harvard Business Review as one of the twelve most important management ideas of the past decade. And his recent book, *Judgment Calls: Twelve Stories of Big Decisions and the Teams that Got Them Right*, was named by *Publisher's Weekly* as one of the best business books of 2012.

Professor Davenport is one of the first management thinkers recru...
