## Testimonials

Pamela Meyer was our keynote speaker at AGA's Sixth Annual Internal Control & Fraud Conference. She was the perfect speaker, because her topic of uncovering human deception by watching for signals the body makes involuntarily, resonated perfectly with our audience of over 500 government auditors and fraud specialists. Everyone left with priceless skills previously only available to CIA operatives and those trained in the art of interrogation. Pamela is a completely dynamic speaker with incredible stage presence and outstanding visual aids. She was a pleasure to work with, and even allowed extra time to rehearse with our production company a day prior to her presentation, making sure it was flawless. She received 96% good to excellent rating from our attendees, which proved Ms. Meyer was the correct choice to speak at our conference. I wouldn't hesitate to recommend her.

Pamela has a truly unique ability to take the audience through the liespotting process in an entertaining way. She teaches how to understand a whole new language- the language of nodding your head while the answer is actually NO!. There were so many "A-ha!" moments. She was riveting.
