

Organizations today are searching for someone with credibility to help Elevate their Business to the NEXT LEVEL ...

Meet **Scott Greenberg**, a business game-changer who has the credibility to understand what makes managers and employees thrive, and how to create the kind of experience that keeps customers returning. Fueled with over 10 years' experience as a franchisee of 2 Edible Arrangements, his operations tactics won international recognition with "Best Customer Service" and "Manager of the Year." Scott practically wrote the book on what it takes to become NEXT LEVEL. He knows, first-hand, what it takes to transform businesses from average to extraordinary.

Scott has an uncanny ability to zoom in on a company's opportunities and design game-changing steps to grow the business, build high-performing teams and create unforgettable customer experiences.

Going beyond numbers and profits, Scott delves into the human side of business to help organizations foster connections, build a loyal brand, and make a memorable impact on the lives of customers and employees. Improving business from the inside out, he co-created an innovative management diagnostic and leadership tool, The Coaching Cure™, that improves employee attitudes and skill-sets — which results in a better performance.

Scott focuses on creating customized and value-driven keynotes (and workshops) that are engaging for the attendees. The moment Scott steps into the room, attendees know that their business goals and vision are about to become a reality. Having Scott on your team is like replacing that negative voice in your mind with one that is overflowing with strategies, compassion, and dedication in watching you succeed.

- ▮ Retail
- ▮ Peak Performance
- ▮ Management
- ▮ Leadership
- ▮ Employee Engagement
- ▮ Customer Service

Testimonials

▮ "Scott Greenberg's message really set the tone for our meeting—it resonated with our franchisees and tied directly into our CEO's presentation, which was fantastic! Scott built a highly customized presentation for our event and referenced real world examples specific to our franchise system, which everyone loved. Even following our convention, we continue to hear our groups speaking of how a "High Performance Mindset" helps them to better achieve their goals. ▮

- Buffalo Wings & Rings.

▮ "He's awesome if you want a customized presentation for your group. I have never had a speaker work so hard to become intimate with our issues and opportunities and make the content so relative." ▮
