

Dr. Thomas Royer has more than 45 years of healthcare experience as a clinician, clinical leader, physician leader, physician executive, and ultimately health system CEO. He is presently one of three partners and CEO of Royer-Maddox-Herron Advisors, a health care consulting firm providing multiplicity of services for healthcare providers as well as organizations tied to the healthcare industry, including employers.

Following surgical residency and two years serving with the U.S. Navy, Dr. Royer held various leadership roles with Geisinger Health System, including Sr. Vice President and Medical Director. After serving as CEO and President of the Johns Hopkins Medical Services Corporation, Dr. Royer joined Henry Ford Health System as SVO for Medical Affairs and CEO of the Henry for Medical Group. For more than thirteen years, Dr. Royer led CHRISUS Health as its founding CEO. Today, Dr. Royer applies his career experience and expertise as founding partner and CEO of Royer-Maddox-Heron advisors, an advisory services firm providing management and operational consulting to leading healthcare organizations.

Testimonials

“I have been in the audience on several occasions when he has presented and have consulted face-to-face with Dr Thomas Royer, however, his presentation at the TSCPA's Advance Healthcare Conference in San Antonio on 07/25/2017 was over the top, awe inspiring! You could have heard a pin drop in the large conference room during most of his presentation except he delivered a funny line and the audience was laughing. Due to his professional and where the rubber meets the road experience he was able to present his views on healthcare and how to solve its problems in a motivating and impassioned way. He showed up not only as an articulate physician and presenter but also as the leader that he is. I got choked up we he told about the incident that had him ask why he thought he was put on this earth. I think his focus on teamwork and collaboration is spot on. Defining what the players who will execute the work of transformation look like was brilliant. I urge anyone who is interested in healthcare, change management or transformation to listen to him at every opportunity.”

- Director of Services, Accountable Aging.
