Testimonials

I just want to say thanks for everything and will certainly employ your leadership techniques. I want to ensure I take time to let the team know each and every one of them is a valued member of the team. We often focus on the mission and time goes by and we sometimes lose sight of the human dimension which is what makes our Army the Greatest in the world. I still recall you taking time out to send personal hand written notes to subordinates. Thanks for your Leadership and Steadfastness.

I saw you present at the Women's Connection Conference in the Quad Cities, last week. I'm sure you have been flooded with compliments, but I wanted to say how much I enjoyed your presentation. You're tough, you're funny, and you're inspirational. I too work in a public speaking capacity for our university. I never pass on an opportunity to witness great speakers in action.
