

Jason W. Womack, MEd, MA, provides practical methods to maximize tools, systems, and processes to achieve quality work/life balance. He has worked with leaders and executives for over 16 years in the business and education sectors. His focus is on creating ideas that matter and implementing solutions that are valuable to organizations and the individuals in those organizations. Jason is sometimes referred to as a productivity coach, other times as an organizational performance enhancement consultant. He always sees himself as a “helper” and “mentor” who is willing to travel near and far to help individuals and organizations reach their maximum potential.

If one looks at Jason’s schedule you will see - in a very short period of time - speaking and consulting engagements stretching from New York City to Santa Barbara and Berkeley, California and Wichita, Kansas down to Dallas, Texas and Palm Beach, Florida. Most recently, he is traveling the continent in support of his book. You can follow along “Where’s Womack” on the company website. Author of *Your Best Just Got Better: Work Smarter, Think Bigger, Make More*, Jason shows that working longer hours doesn’t make up for a flawed approach to productivity and performance.

Entrepreneurs need to clarify their habits, build mindset-based strategies, and be proactive. Womack’s signature workplace performance techniques offer specific strategies to consistently and incrementally improve performance. Jason provides his audiences with a number of proven techniques for leaders to improve their own effectiveness as well as that of their employees.

To book business performance and time management speaker call Executive Speakers Bureau at 901-754-9404.

Testimonials

“Jason Womack owns the personal productivity category in the training community. He regularly experiments with practical ideas shared by his network, makes them available in an understandable fashion, and follows up by encouraging people to try small experiments with them. His workshop designs are textbook examples that create tangible learning by easing participants into making small changes that, when accumulate over time, produce big results.”

- federal agency field training consultant.

“I knew that if I could just clear my mind I could be so much more powerful, I just didn't know how to do it. Things just kept coming at me and piling up. The system you showed us is ‘it’ for me. I am actively creating my lists, my files, and practices around this. You cannot put a price on the power and freedom to be present in life!”

- Product Manager, Tyco Healthcare.
