

Steve Harvill, President and CEO of Creative Ventures, has been sharing his concepts and strategies with companies for 30 years. From the Fortune 500 to small startups Steve and his Creative Ventures team have developed programs that cross industry lines and challenge the status quo. A scientist by education and the past president of two companies, Steve uses his leadership experience and empirical data to reinforce his assertions. Whether he is presenting, teaching, or consulting his programs on Leadership, Sales, Marketing, Innovation, and The Client Experience are guaranteed to leave you with actionable steps to take your business to the next level. With a client list that includes Apple, Zappos, IBM, Frito Lay, Morgan Stanley, and Wells Fargo, Steve's resume is a testament to the value he brings to each project.

Testimonials

“ Steve Harvill continues to bring innovative and fresh ideas to our firm. In a world where the only known is change and disruption, the One Click Armageddon platform focuses in on how relevance and value become key components to building a unique strategy. The program is thought provoking, causing participants to think and ultimately act differently. Thanks, Steve and company, for a great program! ”

- CEO at Questar Capital Corporation.

“ Steve connects with an audience in a very personal way while at the same time always imparting valuable information. When Steve talks, the room lights up, he tell stories, gives examples, in threes. I can still remember things that Steve talked about years ago, and often use his decision-making and astute ideas. Steve is genuinely warm, witty, charming and articulate. Steve insights on the DNA of a Companys culture and his facilitation of how we build that culture will positively influence our company our patients, shareholders, employees, and the communities we serve, now and in the future. ”

- General Counsel, RiverMend Health.
