

Jennifer Arnold, MD, MSc, FAAP was born in St. Petersburg, FL and grew up in Orlando, FL. She completed her undergraduate degrees in Biology and Psychology at the University of Miami in Florida. She then completed her medical degree at Johns Hopkins School of Medicine in Baltimore, MD and graduated in 2000. She attended a Pediatric Residency Program at Children's Hospital of Pittsburgh. During her fellowship in Neonatal-Perinatal Medicine, she obtained a Master's of Science in Medical Education from the University of Pittsburgh. She is Board Certified in Neonatal Medicine and is currently the Medical Director of the Simulation Center at Johns Hopkins All Children's Hospital.

Dr. Arnold has been involved in simulation education, patient safety, and research endeavors for the last 10 years. She was a NIH postdoctoral scholar at the University of Pittsburgh School of Medicine's Safar Center for Resuscitative Medicine from July 2006-July 2007. She has been funded for her simulation educational research through the Laerdal Foundation for Acute Medicine, Cullen Trust for Healthcare, Texas Children's Hospital Educational Grants, and MD Anderson Foundation. Currently, her areas of interest within simulation include use of simulation for evaluating new clinical spaces, team training, improving quality and patient safety, improving home care and skills for primary caregivers of medically complex children, and developing educational curricula for various departments throughout the hospital.

She has spoken both nationally and internationally on healthcare simulation and has made inspirational speeches on overcoming obstacles for avenues such as the Texas Conference for Women, Shiners Hospital, Sloan Kettering, March of Dimes and many more. She has received awards in...
