Testimonials

"Taylor was amazing as a speaker at the Gotta Be Good Tour stop in Los Angeles... he's really widely read on science and execution discipline, and he's put theoretical insights into practice in his own life. When he shares his experience with the audience, it resonates and shows them how they can do better. He got lots of good feedback and helped make our Los Angeles event a big success. We were really grateful to have him as a speaker, and he's highly recommended if you'd like someone to speak at any event you're hosting — in particular on topics related to business, philosophy, operations, achieving things, thinking, systems, habits, execution, and just about anything related to practical wisdom and living well. Hear him speak if you get the chance; or even better, book him to speak at your event if you can. You won't regret it."

- Executive Director, CPNC/GiveGetWin; COO, ChaseFuture.

"Taylor left our audience inspired, energized, and armed with the tools they needed to take advantage of it. I don't think his presentation could have been any better."
