

Kristin Arnold is NOT your traditional stand and deliver presenter. She breaks the “speaker” mold with her unique interactive style. She makes the *audience* the focal point of the program. She engages them early and often about issues *they* care about. Key messages stick long after the event. Audiences walk away with easy-to-follow action items that can be implemented immediately. Some speakers say they customize, but just change a few words, insert the logo and push the “play” button. Not Kristin. Her presentations are custom-built from the ground up. She gets super clear on the specific outcomes and take-aways desired by each individual client - and delivers exactly what they need to hear. As one of the first female graduates of the US Coast Guard Academy, a retired Commander, and former president of a \$4M non-profit, Kristin is a savvy business woman who knows what it takes to lead others. With over two decades of experience speaking, consulting, training, facilitating and coaching teams and their leaders in the work place, this award-winning author has worked with over a 100 different organizations, 300 different teams, and presented to over a half a million people around the world.
