

Dr. Wendy Walsh is North America's thought leader on relationships, breaking down the psychology of sex, love, gender roles, divorce, parenting and other human behaviors on CNN every week. Speaking on topics ranging from building stronger relationships with friends and family to creating long-term, mutually satisfying relationships in the business world with clients and colleagues, Dr. Walsh's honest—and humorous—talks put audiences instantly at ease. Whether you're looking to strengthen relationships in the boardroom or help others with their personal lives, Dr. Walsh can customize any address to suit your needs. In addition to her work with CNN, Dr. Walsh is also the host of Investigation Discovery network's popular series, Happily Never After, where she guides viewers through the sometimes treacherous side of love, and the resident expert at DatingAdvice.com. Dr. Walsh brought her trademark no-holds-barred style to season four of The Doctors. She has appeared on The Today Show, The CBS Early Show, Good Morning America, The Ricki Lake Show and The View. To date, Dr. Walsh has written three books, including The Boyfriend Test, The Girlfriend Test and, soon to be published, The 30 Day Love Detox. Dr. Walsh also regularly blogs on numerous relationship sites, including DatingAdvice.com, AskMen.com, MomLogic.com, SheKnows.com, TheDoctorsTV.com and Dating.Mating.Relating.com. Dr. Walsh also lectures on evolutionary psychology and human mating strategies at California State University Channel Islands. She holds a BA in journalism, a Master's degree in psychology, and a PhD in clinical psychology.
