

There is no one like Kevin.

Once one of the FBI's Most Wanted because he went on an 'electronic joyride' during which he hacked into more than 40 major corporations just for the challenge and not for monetary gain, Kevin Mitnick was once the most elusive computer break-in artist in history.

Today, he is a **trusted, highly sought-after security consultant** to Fortune 500 and governments worldwide. **Kevin Mitnick is the world's authority on hacking, social engineering, and security awareness training.** In fact, the world's most used computer-based end-user security awareness training suite bears his name.

Kevin's keynote presentations are one part magic show, one part education, and all parts entertaining. Whether delivered virtually or live, Kevin will entertain and educate your audience with real demonstrations of the latest hacking techniques to help raise the security awareness of individuals and organizations worldwide while keeping attendees on the edge of their seats.

Kevin is a global bestselling author and his books are available in over 50 countries and 20 languages. **He is the world authority on social engineering and security awareness training.** Well over 1 million professionals watch Kevin Mitnick's Security Awareness Training program every year. His written works are mandatory readings for security professionals. They include:

*The Art of Intrusion: The Real Story Behind the Exploits of Hackers, Intruders and Deceivers*

*The Art of Deception: Controlling the Human Element of Security*

*Ghost in the Wires: My Adventures as the World's Most Wanted Hacker* (NY Times Bestseller)

*The Art of Invisibility: The World...*

**Kevin Mitnick**

### Speech Topics

- Virtual Keynotes
- Technology
- Cyber Security
- Business Trends
- Business Ethics

## Testimonials

“Kevin has a unique ability to connect with both technical and non-technical groups, which makes him a perfect fit for almost any event, especially those audiences that run the full gamut of technical ability. Die-hard techies will enjoy “geeking out” with Kevin, and everyone else will still be fascinated and perhaps a little frightened by what they learn. Our attendees could not have been more pleased with Kevin and his “Art of Deception” keynote.”

- Dell, Inc..

“Our company hosts an annual IT Security Conference in Philadelphia and Kevin has been our keynote speaker for two separate events.....[both times] the group was sitting on the edge of their seats during Kevin's interactive security demonstrations. His Art of Deception presentation caters to both a technical and non-technical audience. His discussion is balanced between hacker techniques and on stage social engineering demonstrations. I highly recommend Kevin to any audience interested in learning how to protect themselves from emerging threats.”
