

Flip Orley (aka Hypnoman) has been performing stage hypnosis and comedy for over 18 years. He has been seen on Entertainment Tonight, The Today Show, Comic Strip Live, Ricki Lake, Maury Povich, Rolanda, Space Ghost Coast to Coast and many variety programs. Flip is working to reshape the image of hypnosis from something perceived to be of the vaudeville era into something palatable for the MTV generation.

Flip's one man show is setting comedy club attendance records from coast to coast. The Los Angeles Times attests that ...the beauty of Orley's show is that, because most of the humor comes from volunteers, no two performances are alike. The Dallas Morning News reports, It's difficult to remain skeptical after seeing Flip transform a panel of well behaved audience members into a family of trailer park dwellers from Arkansas, southern accents and all! Flip performs for comedy clubs, universities, and corporations around the country and around the world.

Flip Orley has not rejected the clinical side of hypnotism, however, and often uses his highly developed techniques in seminars and workshops to help people with stress management, weight control, procrastination, and compulsive behaviors like smoking and shopping.
