Testimonials

“ This was my first to to have a comedian for one of our keynote speakers. I think now it will have to be a tradition. I have never seen the audience react and laugh the way they did when he was speaking. There has been nothing but great reviews from everyone that attended the luncheon. Those that did not make the lunch highly regretted it.! ! He took the time to walk around our trade show and get some personalized information to use before he spoke. That worked out great and tied everything together. Please let him know that he was fantastic.! Looking forward to working with you again.! ”
