

Suzie Humphreys is one of the most compelling speakers on the platform today. As she takes her message from corporations to conventions, from hospitals to classrooms, she is at home with people of all ages and all walks of life. Her ability to work with her clients to create an atmosphere of relaxation and fun enables the audience to not only remember what she said, but GET IT! Her first question to the client is "What do you want the audience to leave with?"

Suzie's a different kind of humorist...a different kind of motivator...slightly off center in her style the way your oldest and best friend is...honest and open, but sensitive to the painful side of life. The side that is one step away from joy! She lifts, jolts, and nurtures her audiences and they love every minute of it. She makes them laugh until they swear they can't laugh anymore...and then she grabs them again. When she leaves the stage there remains the unmistakable warmth of having been touched, and the unshakable affirmation that whether ordinary or extraordinary, through good times or bad, caught in mid-frailty or new accomplishment, life really is the greatest thing ever!

Suzie's background is as varied as her audiences...from administrative secretary to Television Talk Show Host, to 20 years in radio. She has hobnobbed with movie stars and politicians, interviewed the great and the "near" great. She has made hundreds of commercials, done musical comedy and motion pictures. She has been fired, been broke, been disappointed, been a petrified expectant mother at 40 years old and lived her life with a passion for learning not only how to be better, but to see things differently.

Suzie received one of the longest standing ovations on record from the Nation...

I am writing to thank you again for your amazing presentation at EPA's Fourth National Customer Service Conference. You had us all in the palm of your hand from the first story to the last. We laughed, we cried, and we stood and cheered when you finished, everyone wishing you'd keep talking and sharing your warmth and wisdom. People are still raving about how you made them feel about you, and more important, how you made them feel about their own potential to do good, to achieve and to tackle anything that comes their way. If ever again I have the opportunity to recommend or select a motivational speaker for a conference, there's no doubt in my mind that Suzie Humphrey's name is at the top of my list.
